How to Locate Evidenced Based Practice Nursing Articles using CINAHL Database

1. Write down your research topic
2. Identify your keywords
3. Consult CINAHL Headings to find alternative keywords
4. Go to CINAHL Plus with Full Text Database
5. Go to the **Advanced Search**
6. Locate Limiters: Select the SmartText Searching
7. Enter your keywords or topic in the SmartText Search

(You can run your database search using different Search Modes and Expanders. This will modify your search rendering different results)
Apply Limiters to your search

- Under Limit your results
- Locate Published Date, Enter the range of years for your research
- Locate/Select: Full-Text
- Locate/Click Evidence-Based Practice
- Click Search
